

SHAKEN/STIR

Register and receive full caller ID verification for all numbers associated with your Talkdesk account.

Talkdesk has been working closely with its provider partners to implement SHAKEN/STIR and ensure compliance with the FCC and CRTC mandates. This set of industry standards is designed to reduce spam robocalls and prevent the “spoofing” of Caller ID information.

All purchased Talkdesk numbers associated with an account are automatically partially verified today without requiring any additional action. This applies to all numbers that have already been purchased or that are newly purchased.

Talkdesk is also providing an easy way to register your account profile details in order to obtain full verification for all purchased numbers associated with an account.

Main capabilities

Simple registration

Complete an easy one-time registration process to ensure all new and existing numbers receive full verification.

Become a verified caller

Build trust with your customers through a verified and authentic caller ID and ensure they always know who’s calling when you reach out.
